

A large, industrial-grade digital color press machine, the Kodak NexPress S3000. It is a long, white and grey machine with a prominent yellow light on top. The text 'Kodak' and 'NexPress S3000 Digital Production Color Press' is visible on the front panel. The machine is set against a blue background with a yellow diagonal graphic element on the left side.

Kodak

NexPress S3000 Digital Production Color Press

Our most productive press

The **Kodak NexPress S3000** Digital Production Color Press is the most productive digital color printing solution offered by Kodak. This workhorse combines the ruggedness of a production press with the flexibility of a printer. It efficiently produces consistent, high quality digital color output. More output delivered faster means more benefits to your bottom line.

Perfectly configured to meet your printing requirements

The S3000 Press is designed to meet your printing needs today and tomorrow with a modular design that allows the configuration to grow and change with you.

With options for additional input and output capacity, the S3000 Press permits longer uninterrupted printing. In-line finishing accessories help complete jobs in fewer steps.

Award-winning technology lets you print four or five colors at full rated speed. And with the optional **Kodak NexPress Fifth Imaging Unit Solutions**, you can match spot colors, add watermarking or a protective coating, and create high-impact glossing that will grab your customers' attention. The S3000 Press is an investment that grows with your business!

Robust substrate support

Built on the legacy of our **Kodak NexPress 2100 Plus** and **2500** Digital Production Color Presses, the versatile S3000 Press supports a broad range of substrate types, sizes, weights and thicknesses.

Print on coated or uncoated paper, textured stocks, labels, synthetics and transparencies. Select from a wide range of light substrates for statements, invoices and technical documentation—or choose heavy substrates for direct mail, greeting cards, point-of-purchase signage and

packaging. Print posters and book covers on the largest sheet sizes.

Your customers will appreciate your ability to support their special application requests.

Dependable and reliable

The S3000 Press is designed with an unprecedented level of user serviceability. The combination of operator replaceable components (ORCs) and a world-class, onboard operator support system ensures that you will be printing, not waiting for service to arrive.

Kodak NexPress S3000 Press

- ▶ 6000 A4/letter sheets per hour
- ▶ Ideal for large to very large commercial printers, large photo services operations, and data centers

Kodak NexPress S3000 Digital Production Color Press

Technical Data*

Base configuration

4-color print engine

4 feeders with total capacity of 11,000 sheets / 1100 mm pile height**

1 high-capacity delivery with total capacity of 5500 sheets / 550 mm pile height**

Kodak NexStation Front End

Printing speed (single sided 4/0 or 5/0)

6000 A4/letter/legal sheets per hour (100 ppm)

5454 C4 sheets per hour

4092 B4 sheets per hour

3000 A3/tabloid sheets per hour

2730 B3 sheets per hour

Double-sided printing speed (4/4 or 5/5) is half of single-sided speed

Imaging technology

Dry electrophotography, 600 dpi, multi-bit

Screens: classic, line, optimum, supra, and **Kodak Staccato** DX Screening

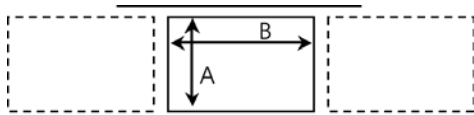

Maximum imageable area

340 x 510 mm (13.4 x 20 in.)

Substrate format

Maximum sheet size: 356 x 520 mm (A x B) (14 x 20.47 in.)

Minimum sheet size: 279 x 200 mm (A x B) (11 x 7.9 in.)

Dimension A (min-max) 279 to 356 mm (11 to 14 in.)

Dimension B (min-max) 200 to 520 mm (7.9 to 20.47 in.)

Substrates

Paper: uncoated, matte coated, glossy coated, cast coated and textured, wood free, and recycled, including a wide selection of standard offset papers

Special substrates: uncoated, matte coated and glossy coated labels, paper-backed transparencies and select opaque foils

Paper weight

60 to 350 g/m² (16 lb. bond/40 lb. text up to 130 lb. cover) uncoated

80 to 350 g/m² (20 lb. bond up to 130 lb. cover) coated

Paper feeding

Two 1000-sheet feeders, each with 100 mm (4 in.) pile height**

Two 4500-sheet feeders, each with 450 mm (18 in.) pile height**

Paper delivery

1 high-capacity delivery

Main delivery with capacity of 5000 sheets / 500 mm (19.5 in.) pile height**

Proof delivery of 500 sheets / 50 mm (2 in.) pile height**

Paper cart

Dimensions of base configuration (LxWxH)

6036 x 2045 x 1769 mm (19 ft. 9 in. x 6 ft. 7 in. x 5 ft. 9 in.)

Weight of base configuration

3,873 kg (8,538 lb.)

Options/Accessories

Fifth imaging unit to create 5-color print engine configuration and to enable **Kodak NexPress** Fifth Imaging Unit Solutions, listed below:

Kodak NexPress Intelligent Color Solution

Kodak NexPress Intelligent Coating Solution

Kodak NexPress Intelligent Glossing Solution

Kodak NexGlosser Glossing Unit for Intelligent Glossing Solution

Additional high-capacity delivery

Additional paper cart

Additional node for **Kodak NexStation** Front End

In-line booklet maker

Roll feeder

*Actual measurements are in metric units. Conversions to U.S. units have been rounded.

**Capacity measured with 100 g/m² paper.
