Single Touch Scanning

Use the Single Touch Scan feature to create a dedicated, easy-to-locate scan button directly on the color touch screen interface. Assign the Single Touch Scan button its own scanning workflow for fast document distribution and archiving.

Easy at Your Point of Need

The brightly illuminated 8.5 in. color touch screen provides easy access to a wealth of workflow-optimizing capabilities. Onboard scanning solutions come standard, and require no extra software or middleware: Single Touch Scan; on-box Optical Character Recognition with searchable PDF creation; secure PDF; print from and scan to USB device; Scan to Email, Mailbox, and Network. Plus, single pass scanning simultaneously scans both sides of two-sided documents, while high-compression technology reduces file sizes.

Extend Your Possibilities

Transform the way your organization gets vital work done with the power of Xerox® Workflow Solutions, built on the Xerox® EIP® platform. Whether scanning and managing documents on your office network or a hosted cloud on the Internet, you can access scan workflow solutions right from any WorkCentre® 7800 series device. Plus, EIP Serverless technology allows creation of applications to run on ConnectKey™ MFPs, without

the need for additional IT infrastructure. This allows you to simplify and personalize the usability of your device with a range of capabilities from support applications to scanning.

These are just a few of the many examples of Xerox® Workflow Solutions users can access via the color touch screen interface:

- **Xerox® ConnectKey™ for SharePoint®.** Scan files directly into Microsoft® SharePoint and other Windows® folders. Plus, you'll go beyond basic file storage and PDF creation by automatically converting documents to intelligent, structured data with easy file naming and routing tools.

- **Manage threats proactively.** As new threats emerge, Xerox proactively monitors security clearinghouses for new vulnerabilities and provides patches when necessary, ensuring your equipment stays current and your data is kept safe. Plus, you can receive up-to-the-minute updates via RSS feeds and stay informed via www.xerox.com/security.

- **Stay compliant with regulations.** WorkCentre 7800 series devices comply with the latest security standards across industries, including government, finance and healthcare. These include Common Criteria, HIPAA, Data Protection Act, COBIT and more. These devices can conform to any standard, with controls available to match your needs.
- **Gain complete visibility.** Prevent IP theft and ensure non-repudiation by having total visibility into the device and network. With security policy management and tracking of all activity on the device with Audit Log, you can know who accessed what, when and details of every interaction with the device.

Powerful Partnerships

Xerox® ConnectKey™ MFPs include McAfee® technology integration, resulting in the industry's first lineup of multifunction printers that protect themselves from potential outside threats. McAfee's whitelisting technology ensures only safe, pre-approved files or functions are executed on your devices, minimizing the need to manually update software levels against new security threats. Also, seamless integration with the Xerox® MPS toolset and McAfee ePolicy (ePO) allows for easy tracking and monitoring.

Plus, automatic Cisco® TrustSec Identity Services Engine (ISE) integration provides comprehensive visibility of all ConnectKey MFPs' endpoints to enforce IT-centric security policies and compliance.

For example, rules can be set so that all Outlook® emails automatically print in duplex mode and in black and white; and all PowerPoint presentations print in color.

Color By Words: Unique Color Control

Have you ever wanted to change the color of one object or area in a printout without affecting the rest of the page? With the Color By Words feature there is no need to go back to square one and manipulate source files. You simply select the desired color modifications from a drop-down list, and Color By Words will adjust your printout.

Original photo not right? Use the Color By Words drop-down list and choose "yellow-green colors a lot more green," and "red colors a lot more vivid." Picture-perfect results.
